

**earn as
you learn**

Thank you for showing interest in our 'Earn as you Learn' Affiliate program, developed mainly for the existing learners on our platform.

First things first.

What does an affiliate program mean?

By becoming our affiliate (partner), your job will be to promote Medialytics Ninja and its courses. Each affiliate will get access to his personal dashboard and one unique ID that will be responsible for all tracking.

In your affiliate dashboard, you can generate your affiliate links, which would lead to our website and courses. You need to share that link in your network. Whenever somebody purchases the product using that link, you will earn a certain commission on that sale.

It's simple. It's convenient. It's hassle-free. And it's a zero investment program!

All you need to do is share that link within your network (can be on WhatsApp, Facebook, Instagram, YouTube, Quora or any channel). The internet is full of resources on creative ways to do affiliate marketing!

What's in it for you?

For every sale that your affiliate link makes, you get **30% of the sale amount** in commissions.

For e.g. Suppose 1,000 people visited our website from your referral link. Out of those 1,000 people, 100 people went ahead and performed purchase on our website. The total sales of these 100 people amount to Rs. 70,000. So your commission will be calculated as:

$$70000 * 30\% = \text{Rs. } 21,000$$

What's in it for Medialytics Ninja?

We usually promote our courses on social media channels like Facebook, YouTube and Google, for which we pay some amount of money to them.

But we do not want to pay Facebook, Google or YouTube. Instead, we wanted to give it back to our customers. Because we believe they are the best advocates of our products rather than any advertisement we run.

Hence, we started with this 'Earn while you Learn' program.

When will I receive my commission?

We pay our affiliates in bulks of at least ₹1,000 (\$25 for international affiliates). So, the moment you reach the threshold amount, it will be released to you.

How will I receive my commission?

Once you apply for the program, we will ask you about your desired payment mode, which can be:

1. Bank Transfer or
2. Via PayPal

You will receive the commission amount via your proffered channel.

How to make affiliate links?

1. In your affiliates dashboard, visit **Creatives** tab

2. In the 'Referral URL Generator' enter the landing URL where you want to send the traffic. Some landing URLs we recommend would be:

- Shop Page (displays all courses and bundles): <https://medialyticsninja.com/shop>
- Course Page (displays all courses and their ratings): <https://medialyticsninja.com/courses>
- Or any course individual page

Decide which landing page you want and enter the URL, in the '**Referral URL Generator**' box and click the button. You'll get the referral link.

In the screenshot shared above, we have used the target link of the course page. You can notice it has an `wpam_id`. This id is unique for each account and is responsible for all the tracking.

Do not change this id, otherwise the referral will not be counted in your account.

Now keep sharing this link on social media.

Or you can write articles about us and share the link.

Or write answers to relevant questions on Quora and share this referral link.

Go crazy with your imagination here!

The main aim is to get as many people click on your referral link, visit the website and make a purchase. Sell more, Earn more!

How to track my performance?

You can monitor your performance from the affiliate dashboard

The screenshot shows a dashboard titled "Store Affiliates" with a navigation menu including Overview, Sales, Payment History, Creatives, Edit Profile, and Log out. The main content is divided into two sections: "Account Summary" and "Today".

Account Summary

Commission Rate	30.00% of each completed sale, pre-tax

Today	
15627	Visitors
